

LOUIS SEGAL

STUDENT

WORK EXPERIENCES

Partner 2016 - present

23.5 Degrees Starbucks Franchise

Responsible for high-quality food and beverage preparation, as well as ePOS operation and other non-managerial duties including stock control, training and demonstrating excellent customer service.

PROJECTS

Co-founder 2014 - 2016

Quartz Clothing

I co-led a team of seven into a competition against businesses and individuals developing a new product to prevent traumatic brain injuries. We came up with a glow-in-the-dark jumper and had to pitch our idea to a panel of entrepreneurs who would give us a grant. We are now going into manufacture, aiming to sell thousands of units within the next few years.

PERSONAL STATEMENT

I am a student from Cambridge, England. I have a keen passion for sciences, most particularly computer science and analytical sciences. I am currently studying for my A Levels.

I have a logical mind and am excited by problem-solving. I am comfortable in environments with people who share the same interests and passions as me as this allows me to stride in team work and collaborative projects.
